ABOUT ME

I'm looking further to develop my skills and expertise in the field of computer engineering, while also remaining open to new opportunities and learning experiences. Overall, my goal is to make significant contributions to world, embrace continuous learning, and pursue a fulfilling career in engineering where I can apply my passion for building.

LANGUAGES

Portuguese - Native

English - Advanced

Czech - Beginner

SKILLS

Software Development - I developed variety of small projects, being most of them SSR web applications and Rest APIs. By building this projects I had the opportunity to work with languages like Python, C#, C, Java, PHP, Javascript and Kotlin.

Electrotechnics - Electrotechnics has been a hobby of mine. I have a basic understanding of the principles of residential and industrial electrical systems. IoT is also an area of interest for me, which has led me to build some small projects in the past.

EDUCATION

Instituto Politécnico de Viana do Castelo (Current)

Computer Engineering - EQF 6

Instituto Politécnico do Cavado e do Ave (2021)

High Technician in Management Support - EQF 5

Escola Secundária D. Sancho I (2019)

Technician in Electrotechnics - EQF 4

WORK EXPERIENCE

Computer Engineer Intern • Continental • 2 months (2024)

At Continental I had the opportunity to build a small web application. This application was design to help the maintenance teams keep track of the measurements taken in the production lines.

Crew Member • McDonalds • +1 year (2023)

At McDonald's in Famalicão, I gained valuable experience working as a Crew Member for one year. This role helped me develop strong teamwork and customer service skills.

Electrician Apprentice • Nelson Vilar • 5 months (2021)

As an Electrician Apprentice, I performed tasks such as Automation of Agricultural Structures, Residential Electrical Installations, among others.

Finance Assistant Intern • PROF • 6 months (2021)

During my internship at PROF, I prepared reports, organized meetings, managed clients and suppliers, handled and addressed complaints, and provided administrative support across all departments of the company.

Production Assistant Intern • Preh Group • 4 months (2019)

At Preh Group, I worked as a production assistant and was responsible for engraving identification codes on printed circuit boards (PCBs).

Maintenance Intern • Continental Mabor • 2 months (2018)

I completed a 2-month internship at Continental Mabor in Lousado, where I assisted in the prevent maintenance of the company's production lines.
